This is the very same manual that your local GM dealer... It was the go-to vehicle for Cadillac aficionados who wanted the comfort of an SUV and a smaller, sportier profile. This feature is perfect for stowing wet gear or keeping drinks on ice in warm weather. CC0/SchilderSchool/Pixabay Gas Mileage Isn't the SRX's Strong Suit With a rating of 17 MPG in the city and 24 MPG on the highway, the SRX falls short of more fuel-efficient sedans. It may not be optimal for a daily commute, but it can hold its own on vacation. Free/Skitterphoto/Pexels The CUE Infotainment System Comes Standard The Cadillac User Experience includes an eight-inch LCD touch screen and a number of interfaces that work with Bluetooth devices, MP3 players and USB drives. More Read the publication CC BY 2.0/Mic/Flickr The Cadillac SRX had a good run. Whether you're looking to purchase a 2008 Cadillac SRX or want to reminisce about the glory days, there's a lot to love about this iconic model. It featured two engine options: a 225-horsepower V6 and a 320-horsepower V8. Even though the SRX always scored highly for performance, handling and comfort, Cadillac SRX 2004 models had one main flaw: They didn't look as sporty as drivers expected. The SRXs significant roof height contributes to an especially spacious feel. CC0/27707/Pixabay MORE FROM QUESTIONSANSWERED.NET In addition to six standard cabin airbags, buyers could opt for an adaptive all-wheel drive system for increased traction and a collision warning system with a front camera. CC0/Breakingpic/Pexels The SUV Hybrid Originally Had a Third Row First-generation SRXs offered the option for a third row to seat up to seven people. Five stars is the top score for NHTSA ratings. CC0/3844328 / Pixabay Cadillac Offered an Optional Collision Warning System The 2015 SRX placed significant attention on driver and passenger safety. While you may not be able to get your hands on fresh-from-the-factory models anymore, there are still SRXs from past years roaming the open road. Here are 10 cool SRX facts. The SRX Launched in 2004 Patterned after the Cadillac CTS but designed with a crossover destiny, the first SRX rolled off the assembly line in 2004. Instead, Cadillac wanted to launch a new model, the XT5, that combines aspects of both the SRX and Escalade. CC BY 2.0/Autoweek USA/Flickr You Can Always Seat Five While the launch of second-generation SRXs — from 2010 to 2016 — meant a smaller design, all model years can seat at least five passengers comfortably. This changed after a redesign in 2010. CC BY 2.0/M 93: "Dein Nordrhein-Westfalen"/Flickr 2015 Models Scored Five Stars for Safety In 2015, the SRX received a five-star safety rating from the National Highway Traffic Safety Administration. This was removed in 2010 to create a more streamlined appearance. CC BY 2.0/bsabarnowl/Flickr Newer SRXs Have an Under-the-Floor Storage Bin In addition to a spacious rear area, second-generation SRXs offer a hidden waterproof compartment near the rear door. However, the crossover SUV provides a good balance of power and seating capacity. To keep the attention of passing motorists as well, the SRX Sport features a sport grille, modified front and rear fascias, 20-inch forged alloy wheels dipped in 255/50R-20 Goodyear Eagle RS-A tires hiding V-series Brembo brakes with drilled rotors, and dual exhaust tips hooked up to a Corsa cat-back system that boosts output by 10 horsepower to 330.
