Most of the Beatles songs, like most of the pop songs, are about love. But as the band's music developed, so their subject matter moved beyond "loves you yes, yes, yes", and "I want to hold your hand." Some of their most excellent songs express, illustrate or connect with other philosophical ideas. "I cannot buy myself love", is a classic statement of the philosopher's traditional indifference to material wealth with regard to what is good for the soul. It is true that Socrates was more interested in the truth and virtue of "love" (which as conceived in the song is not presumably not purely platonic). And it is fair to note that Paul later said they should have sung "money can buy me love" given his experience of fame and fortune. However, the main feeling, is "I don't care too much about money, money can't buy me love", would have been endorsed by many philosophers from ancient times to our day. Karl Marx would have loved the "night of a hard day." Writing of "alienated labor", Marx describes how the worker is only himself when he is at home. When he is at work, he is not himself, reduced to the level of an animal forced to do everything he said. The wonderful "oooooooooooo" in the middle of the song could be a cry of ecstasy to be alone with the beloved or howl of an animal from someone who every day has "worked like a dog." "Dhentre Man" is a classic description of someone drifting aimlessly and disengaged from the modern world. Nietzsche thought an appropriate response to the loss of meaning following the "death of God" would be a kind of panic. But the "Dhentre Man" seems to just feel like he's undressing. A pervasive individualism characterizes modern capitalist society; And individualism produces, almost inevitably, isolation and loneliness. This McCartney song captures so Capture the loneliness of A e ä. - "Woman testifying other people who get married but live at the end of her life alone, so friend that there is no one to her "Eleanor Rigby" is the question: "All lonely people, where do they all come from?" Many social theorists would say they are produced by a system that is more concerned with competition and trade than with the community. "Help!" is an overwhelming expression of insecurity felt by someone who makes the transition from the blind trust of youth to a more honest and adult recognition than others need. "Where" Eleanor Rigby, "It's sad," "Help!" "He is distressed. Deep down, it is a song about self-awareness and the spreading of illusions. This song is at the opposite end of the spectrum from "help." "With its pleasant melody," "with a little help from my friends" expresses the security of someone who has friends. He doesn't look like someone with great talents or ambitions; Having friends to "go" with is enough. The ancient Greek philosopher Epicurus would have approved. He says it is not very necessary for happiness, but of those things that are necessary, the most important by far is friendship. "In my life, it's a subtle song, one of John Lennon's finest. It is a question of wanting to maintain two attitudes at the same time, albeit in some way conflicting. He wants to cling to his loving memory of the past, but he also wants to live in the present and not be stuck in his memories or bound by them. As "Help" is also a reflection on the process of movement beyond your youth. Capitol Records/ Parlophone Records "Yesterday", "One of Paul's most famous songs, offers a fascinating contrast with" in my life." Here the singer prefers the past to the present. "I believe in yesterday" is and is completely stuck inside it without any desire to come in terms of the present. It is one of the most covered songs ever written, with over 2,000 versions recorded. What does it say about contemporary culture? "Hey Jude" explores the virtue of a cheerful, optimistic vision and about life. The world will appear a warmer place for With a warm heart, while "he is a madman who plays it cool, making this world a little colder." He also tells us, modestly, to "live dangerously", because © Nietzsche puts him in gay science. Some philosophies argue that the best way to live is to make sure against anxiety or misfortune. But Jude has been said in bold and lets music and love under his skin, because © It is the way to experience the world more fully. "Let it be" is a song of acceptance, even resignation. This almost fatalistic attitude is what many ancient philosophers recommended as the safest way to happiness. Do not fight the world: conform to it. If you can't get what you want, you want what you can get. What is the Boston Bruins goal song? Starting from the beginning of hockey season 2019 Boston Bruins 2019, the song "Kernkraft 400 by zombie nation" is the song that is played when the team enters the ice at the beginning of the period and when they score a goal. This song became the song chosen during the Stanley Cup championship race of the team team. Before "Kernkraft 400, Gary Glitter's second rock and roll song was played after each goal. This song has been used from 2000 to 2011. From the beginning, the Boston Bruins used the song ca c'est Paris, better known as a fan couple and the team. This song was played when the team took the ice and scored a goal. Even from 2000 to 2011, this song was still played when the team took the ice. Who wrote the Boston Bruins Goal Song? Kernkraft 400 is a mix of electronic music created by Florian Senfter, Emmanuel Guenther and David Whittaker. The song was produced by zombie nation under the Gigolo label. The song was originally published in March 1999. The song has Remix editions that were performed by DJ Gius. "Are the fans like the Boston Bruins song? There are no major complaints on the current Boston Boston Bruins song. However, in 2016, there was a fan attempt to petition for a new song. Song. The song that proposed was a remix that has combined both opae and kernkraft 400. From the information available online on this petition, it was not a success. There were only 14 people who support the petition. There is a version of the proposal song available for listening to YouTube and it is titled #WantParee Bruins Brains Brains. Have the Boston Boston have ever won the Stanley Cup? The Stanley Cup championship was won by Boston Bruins six times in the years 1929, 1939, 1941, 1970, 1972 and 2011. In their first Stanley Cup victory, in 1929, the Bruins beat the New York Rangers. The Bruins hold a NHL record to have more consecutive playoff appearances, which totaled 29 years 1968 and 1996. During their last appearance of Stanley Cup, in 2011, Bruins beat Vancouver cannochiers in the seventh game. They returned to Stanley Cup Playoffs again the following year, but they were eliminated in the sixth game. The history of Boston Bruins The Boston Bruins were founded in 1924 and were the first American team in the NHL. It didn't want a lot because the Bruins takes their stand in the league and won their first stanley cup in their fourth season. The team's arena was Boston Arena, and took their first game at 1 December 1924. In 1928, Bruins started playing their home games at the Boston Garden. They didn't start well in their new home. They lost the first game of the season to the Canadiens, but then he went ahead the same season to win the Stanley Cup. The Bruins said goodbye to the Boston Garden at the end of the 1994-95 season and started a new era at the TD Garden . Today the Bruins won six Stanley Cup titles, and both his players and the team himself hold different championship records. record.
