Something is wrong with your Internet connection... Oftentimes when we're trying to share our content with others online, we're hit with a pop-up window notifying us that we've exceeded our file size limit— sometimes as small as 8MB. With Kapwing's video compressor, you can compress videos while still controlling the quality of your video. Once you've selected how compressed you want your video, you can choose to convert your video to a different file type or select the resolution of your video to ensure the best quality possible. Kapwing's all-in-one video editor supports all of these workflows while also allowing you to make edits such as trimming clips, adding text and image overlays, combining videos with audio, and much more. To get started, upload your video file or paste a video URL link in Kapwing. Head to the Export Settings in the video editor and adjust the file size slider to determine how much you want to compress your video. Choose what resolution you'd like your video to be and when ready, export your project as any file type: MP4, GIF, Image, or MP3. Once your compressed video is finished exporting, you can download your compressed video, share across social media platforms like Facebook, Twitter, or TikTok, or send to others using the video link. This free online video compressor is also the best way to compress files for email. Google Slides, or Discord. Kapwing supports MP4, MOV, MP3, FLV, AVI, WEBM, and website links. Upload any file to compress or reduce its file size online. Kapwing's Video Compressor works for free! Use it to compress video on Windows, Mac, tablets, Chromebooks, iPhones, or Android phones. Our mission is to provide fast, accessible tools to empower creators and their stories. We believe everyone is a creator, so this tool was made for everyone. VEED works with all major video file formats (and audio formats too!) but here's a list of just a few of the file types we support. If you don't see yours on this list, don't worry, we support all major video and audio files, upload to see if yours works. Try Desktop We use two popular video encoding methods that are supported by most modern devices and browsers: H.264 and H.265. Out of these two encoding methods, H.265 yields better compression, especially at higher resolutions such as 1080p or 4k. How to play compressed video? Codecs we use for compression are supported by all major browsers and devices. So you should not have any playback issues. If any issues, try opening the video with the free VLC player (Windows, Mac, Linux, and Mobile versions available). Allowed file types are: vob, f4p, divx, mpv, rm, swf, m4v, rrmvb, mts, mp4, qt, wtv, 3gp, 3gpp, webm, mp4, mp4, mpeg, mkv, avi, f4v, ogv, 3g2, mov, mp4, m2ts, xvid, asf, dvr-ms, mp4, mp4, wmv, flv, mpg, mp4, m1v, ts, mod, mxf Depending on your files you can set many options (most of them can be combined!) You can select particular pages, rotate PDF pages, reorder pages, split files and much more (just have a look at the buttons right of the selected file)- A PDF protection for printing, copying and editing is removed automatically (without password). For read-protected PDF files the correct password is required. Many other options can be defined, like header/footer, layout and compression. Templates: Page (s) of (y)/Page (x)/Page (x)/2022-08-14(file)/file.(ext) Our powerful image compression tool that makes it easy to reduce the file size of different image files such as PNG, JPG, GIF, SVG, and more. This video compressor can compress various video files and reduce video file size, such as MP4, AVI, FLV, MOV, 3GP, MKV, WMV and more, help you to save disk space and network bandwidth for easy storage, transfer and sharing. The output format is the most popular MP4 video. How To Use: Select a video file (such as *.mp4, *.mkv, *.m4v, *.wmv, *.flv, *.mov, *.vob, *.3gp, *.rmvb, *.mts, *.m2ts, *.rm, *.divx, *.asf, *.webm and more). Enter a desired video size that you need. Click button "Compress" to start upload your file. Once upload completed, converter will redirect a web page to show the compression result. Tips: Please make sure the desired video size is not too small (compared to your original file), otherwise the compression may fail. Another way to reduce video file size is to smaller video frame width and height, please use Resize Video Options: Desired video size is an approximation value, the file size of output video will be close to this value, it cannot be greater than the source file size. Tool will prompt you if this value is less than 30% of source file size, and you can decide whether to continue. Audio quality can be 32kbps, 48kbps, 64kbps, 96kbps, 128kbps or No Sound (silent). If the audio quality of original video is below this value, the original audio quality will be used. No Sound option can also save file size. Remark: If file upload process takes a very long time or no response or very slow, please try to cancel then submit again. This tool cannot support encrypted or protected video files. Select other video tools according to your needs:
