Screensaver android gratis

Download screensaver android gratis. Screensaver gratis para android. Screensaver gratis per android.

The Screen Saver function has gone unnoticed by many smartphone owners, although there are already many interesting applications for this: shiny Â ¢ â,¬ ˜Geightream Screensaver The Shiny Daydream Screensaver app The app is an alternative to the screen of Block with widget. The glossy screensaver allows you to view the most necessary and even more data as you read the news with pre-installed supported programs. The settings are divided into 3 tabs: General Â ¢ â,¬ ˜configures options associated with the activation of the 'application. Performance Â ¢ â,¬ ˜Adjust the appearance of the clock format, date and time. Modules Â ¢ â,¬˜ A selection of additional modules and their configuration. After installing the application in the system settings section of the screen category, there will be a new parameter - a screensaver, where we will configure the information output in the battery charging mode. The main features: The Screen Saver is activated when the device is loaded and / or when connected to the dock. Modules: clock, battery, calendar, missed calls, night mode, the number of gmail letters not read, audio player, reading of RSS subscriptions, presentation of the gallery, SMS, weather forecast. Pluses: automatically disables screensaver when USB power is disconnected. While the program is running, the brightness will be reduced for energy efficiency reasons. Everything is customizable for any taste and color: the size of the characters, the color of the symbols, of the modules and the background, different characters, time format. Compatible with news applications, such as Flipboard and Google Media. All in all, the shiny Screensaver Daydream is convenient and useful to use the application, in particular for the owners of overmaced views such as when displayed in black, the battery is not downloaded at all. Download: 1000000 + Customer Evaluation: (4.5 / 5) Tropical Paradise Wallpaper TropicalÂ ¢ Paradise Wallpaper is an animated screensaver for Android that will amaze you with the its brilliant live effects like the simulation of the water surface, a submarine world of coral reefs, blue sea, tropical beaches and waves Â »You will be satisfied with the quality HD of tropical backgrounds. The application is free. Download: 100000 + Customer Evaluation: (4.4 / 5) 3D Wallpaper Tower Live Wallpaper Kititehface Wallpaper The software is famous for its live wallpaper, so it is not surprising to see the integration of a new application with daydreaming from the studio . The 3D Tower watch is both the live background and a screensaver. With the application, A view from the clock tower on your device's desktop. Rotating mechanisms, a glow of light and a lot of powder Â ¢ â,¬ ˜all corresponds to the name. From the point of view of the saturation of the information, the 3D clock tower is lower than its other competitors, but it looks rather rather For all 3D everything seems to be the most realistic and detailed possible, and the lighting that changes with the time of day adds only realism to what is happening. These wallpapers can be installed on tablets and smartphones due to their horizontal work of landscape and portrait. In the application settings, you can set the desired details, such as the appearance of individual live wallpaper elements, adjusting the intensity of light rays, camera speed and much more than making your desktop even more nice. Download: 10000 + Customer Evaluation: (4.3 / 5) HD Wallpapers (wallpapers) Wallpapers HD (wallpapers) is an interesting application that offers a collection of over 100,000 wallpapers for Android devices, divided into many different categories. There are all the stages that people love. Wallpapers wallpapers 1 for Android include nature wallpaper, animal wallpaper, spaces, car wallpaper, Christmas backgrounds, humans. Welcome and high quality, not worse than other known alternatives. Beautiful wallpaper, excellent choice! At least take it and change it every day. It really is one of the best of its kind. First, discreet advertisement, in contrast to other applications. Secondly, the wallpaper with bright and juicy colors. Download: 10000000 + Customer Evaluation: (4.5 / 5) Beautiful Widgets Pro Beautiful Widget is very popular and one of the sets of older widgets. It also has a Daydream mode. Although it shows only time, time and load, does it perfectly and color, even with the use of animation. Unlike most other applications, beautiful Widgets Pro has many color settings and situations for Daydream. It is worth noting that the beautiful widget has no time, but also the widgets for the rapid switching of various functions, what will allow, for example, quickly turn off the Wi-Fi or turn on a silent mode for a certain period of time . You can set the time or switches directly to the status bar! All these advantages, along with many beautiful skins make this application one of the best on the market. This is why it was included in our best list. Download: 1000000 + Customer Evaluation: (4.2 / 5) HD Wallpapers (Backgrounds) HD Wallpapers (Backgrounds) Â ¢ â,¬ ˜A unique application that will present many exclusive images for the screen. Enjoy incredible images and a ' Simple interface. The application is pre-installed with a variety of wallpapers from the artists. You can view Daily wallpaper updates, send your work, share them with the community and keep in touch with developers. The application has a simple interface User, high-performance, saves energy and offers exclusive themes every day. Here you will find over 10000 free wallpapers, full HD wallpapers, 3D wallpaper, 4K wallpapers. Download: 100000000 + Customer Evaluation: (4.6 / 5) Wallpapers HD & 4K wallpapers wallpapers HD wallpapers and 4K backgrounds - The program will introduce you to the world of fantastic wallpapers. All themes are manually checked and ordered before entering the catalog! The features of the application include The possibility of downloading more than 120 thousand selected wallpapers, high resolution images, daily updates, 65 categories sorted by popularity and alphabet, look for images per color, screen support with any resolution, the function of adding to favorites, etc. The background You can be saved in the SD card and set on the lock screen. The program automatically changes the background to the specified interval, show the day and week, has an elegant design, has a preview of quality parameters, which saves mobile traffic and takes up little space in the phone memory. An intelligent system will help you choose exactly you like. You can search them for color, and black images are perfect for installation on a AMOLED screen. Download: 5000000 + Customer Evaluation: (4.8 / 5) Glance Plus Glance Plus is one of our favorite applications of this type. It is very similar to Samsung is always on display, show, It has some differences. First of all, Glanck Plus maintains the display active for 2 minutes, after the device goes to the suspension mode. However, you can easily activate the application when necessary if you take into account the proximity sensor twice. Glance Plus can also be customized for your taste - you can choose between a pair of analogue and digital dials, weather information, battery level, calendar, as well as adjust the brightness, color and font size. You can not only configure the appearance but also the layout of the elements. Overall, Glance Plus looks fantastic and does not consume a lot of battery power. Initially, the function was designed to work with AMOLED display, which do not consume energy when the black is displayed. The Glance Plus application can work with LCD display, but you should be ready for greater battery charge. Download: 1000000 + Customer Evaluation: (4.2 / 5) ACDISPLAY ACDISPLAY It is not exactly a screen saver application, but it is still a replacement for the lock screen. ACDISPLAY is able to illuminate the display device when receiving notifications and remind you of a preset period of time. The main feature of the ACDisplay is a minimalist design combined with easy control. When you receive a notification, the device activates the screen. Shows an application icon from which you have received a notification, whether it's a message from Hangouts or Gmail, a screenshot from the gallery or time from Google now. The notification is not displayed for a long time, however, time can be set in the settings. The time is displayed using the decreasing white line surrounding the icon. By the way, don't be deceived, thinking that opposplay is just an application for the screen lock! This application has an active mode that uses smartphone sensors to display the lock screen only when you need more, for example, when you take your smartphone from the desk or pull it out of your pocket. Also, you can set the background image and if you are worried that it will influence energy consumption, you don't need to worry - you can set it so that it is displayed only when charging the smartphone. Download: 1000000 + Customer Evaluation: (4.1 / 5) DynamicNotifications After downloading and installing DynamicNotifications, in the future, discreetly display incoming notifications illuminating certain sections of the display. This app uses a proximity sensor to know when your smartphone is in your pocket or is on a flat surface. You can select applications from which notifications will be received and also define the timeout period for the display. Also, there is a function with the interesting name Â ¢ â,¬ å ˜Breathing notifications". Here you can set the frequency of the notification aspect however not constrained on the display. As in other applications of this type, you have The Possibility of setting the brightness level of the display to your liking. In general, the application is very interesting and extremely useful. DynamicNotifications is a free android tool that works in the background and tracks notifications from all installed programs. More to the aforementioned missed calls, mail, SMS and chat messages, DynamicNotifications can view notifications on program updates, games in games and the like. Download: 1000000 + Customer Evaluation: (4/5) 3D Wallpapers 3D Wallpapers Â ¢ â,¬ ˜An application in which you will find the best 3D wallpapers in high quality. Every day something interesting appears! The program offers the best wallpapers in high resolution, 3D graphics themes, an intuitive interface, changing wallpapers in a few clicks, creating a of favorite backgrounds, updating and sending your favorite backgrounds via SMS and MMS messages.
