Warren Buffett is an American businessman, investor and CEO [...]Interest shares are recovering. Let's find out why it's not too late for investors to come on board. Digital World Acquisition (NASDAQ: DWAC) and Phunware (NASDAQ: PHUN) soared on Friday, as the excitement for President Donald Trump's new media company continued to build among investors. On Wednesday, Digital World Acquisition announced an agreement to merge with Trump Media & Technology Group. The combined company plans to launch a new social network to compete with the likes of Facebook and Twitter. Cracks and fixes are a common event, and the perfect opportunity to buy large companies at a discount. International Business Machines (NYSE:IBM) provided another set of missing results on Wednesday, when third-quarter results were announced. While the returns remain uninspiring, the current assessment can offer an opportunity. High inflation rates are making it difficult to find a good investment strategy right now. At the same time, fleeing inflation could cause the Fed to raise rates, which will likely result in market volatility or an immediate correction. The three underlying stocks not only offer some resistance to inflation, but should also actually benefit as prices rise throughout the economy. If there was a corporate boogeyman, explicitly designed to infest technology platforms that rely on advertising revenues, it would be called "Policy Changes." Although Apple's iOS 14.5 update announced tracking transparency months ago, it took some time for its aftershock to hit the environment, as companies like Snap Inc. (NYSE: SNAP) have seen the impact on revenues. Baby boomers have been in the midst of a retirement boom for more than a decade, but the pandemic has accelerated it, adding new dangers.
