With Voli.com, you'll find simple air tickets to land with routes that match your family, business or personal travel. "I like entertainment" "Food options" Pro: "The delayed fact of 3+ hours, very little information provided to passengers were noisy, carrying too much luggage, and they were generally crude." Cons: "Marriage lasted forever. All luggage" Cons: "Contain empty mid seats." Points "The pilot was very nice and fast. Take us to Newark in 1 hour and 40 minutes" Cons: "This was a very old plane and the entertainment option was The 3.5 mm doors were all messed up, and I tried 4 different. Televisions have fled and were extremely small. There were only 3 films to choose from. The seats were terribly uncomfortable and the plane before all the participants embarked but it was visibly dirty ". Positive points: "Crew was cute, the flight was smooth. "Negative points:" The plane was not in front because © the large parts were not destroyed and therefore did not move away socially ". Negative points: "On my trip from Sju to MCO before Boarding a crew member gives us a package with disinfectant fabrics and hand-sanitizer to clean our space. In the flight from MCO to SJU does not do so. "Positive points:" Everyone detached themselves in flight. Snacks delivered in individual pre-born packages. "Negative points:" This flight was for my wife and the Honeymoon and it was a miserable experience. The flight was delayed from several hours without any specific expectancy when it would actually be left. There had been a specific moment, we could at least try to sleep for a while. It would not have been close to the same inconvenience if it had been during the day except during the night, when no shop was open to buy food or a pillow to try to sleep. The airline was unable to get cushions or covered for us. Fortunately we still made it on our cruise before he left, but without sleep he left us rather unhappy trying to recover from that night. "Positive points: "Nothing "Cons: The flight was hours of delay, they don't have Offered an answer or excuses and when we arrived the bags took the way to reach a long time. Never fly JetBlue ever more "Pro: The flight delayed from 8.55 to 1.46. Arrived in White Plains 3.38 am "Positive Points: OK "Negative Points: Flight Was Delay "Positive Points: " Comfortable ". Negative points:" There was a 40 minute delay sent to us 8 hours before flight, but There has been told to arrive at normal time. Then, upon arrival, two of the flight attendants announced that they did not feel well, and we waited another hour, with a few announcements that were only audible at the gate. "Positive points:" Crew in The Plane Was Nice! "Negative points: "Don't charge me to control my bag after Alex said I could have a curtesy control," Negative points: "Very bump flight, TV Live didn't work, pilot speed was not smooth. "Positive points: "Very bump flight, TV Live didn't work, pilot speed was not smooth." and flight. Great Value" Cons: "Nothing" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Cons: "Your choice of snacks are soooo malsano" Pros: "Stewardess was adorable" Pros: "Stewardess was adorable pros: "Stewar flight with a baggage and a personal item. As usual, I personally put my luggage in a basket. After the flight landed and I went to retrieve my luggage, it went! The flight was full, so I checked with flight attendants if my bag somehow was checked or moved. They didn't know, and they said maybe he went to the checked baggage. So I wait for the baggage pickup and my bag comes out without any tags. Strange! My transport had nothing valuable, but a little less nervous. 1. Please communication or some form of record would make this strange incident a little less nervous. 1. Please communication or some form of record would make this strange incident a little less nervous. 1. Please communication or some form of record would make this strange incident a little less nervous. 1. Please communication or some form of record would make this strange incident a little less nervous. 1. Please communication or some form of record would make this strange incident a little less nervous. 1. Please communication or some form of record would make this stra from the cabin to checked baggage 3. Please label the bags if you move around - there was no gate-checked tag or any sticker to communicate with checked baggage people." Pros: "I've reached my destination." Cons: "Misdirection, and poor Flight matching aside (set parameters for LGA or IFK and finished with SWF), the process was terrible. Delayed for 5 hours, connection just missed at Metro North Rail. He will never use Kayak again, regardless of the full or partial guilt of the matter." Pros: "The boarding process was good." Cons: "The passengers were not very friendly." Pros: "I like the fact that the staff was very friendly and accommodating." Seats were comfortable but poor conditions (old). WiFi was also nice." Cons: "The flight was delayed twice and then jump back to the original time, as well. Then they offered 2 wave the fares for cancellation or modification of the itinerary. So I went to do it the next day because my flight didn't land until 3:00 in the morning. But just as I clicked the confirmation button, he said the offer was no longer admissible. And then it changed again to the second alert that was 11:40 something, for departure. I understand that there was a serious storm and a tornado clock, and spotted along the surrounding cities, however the changes continuously over time, JetBlue and mco were not updated between them, it changed so much, so fast." Pros: "Everything was good" Pro: "Inflight crew was great. Natalie was a very helpful girl. He also gave some of us a galley tour and taught us some things about Mosaic customers as well as some other operational things. I didn't take the names of the other flight attendants, as they covered more than the back of the plane, butBoth hospitable and it was very clear that they loved their work as they were members of the crew! "Negative points:" How not-rev I have no room for criticizing. Only be that the A/C model was an older version of the A320 (and I know it will be updated at the end)" Cons: "I sat in the second and last row in the center, I couldn't sleep on this flight" Pros: "Comfort aircraft and good fun." Cons: "The flight attendant was not very kind. He helped, but he seemed tired of people." Pros: "I don't think it's a good idea to change your flight time at a previous time. I missed my flight and then I had to take care of BWI assistants. They were very rude and shocking. The only person who was helpful was a woman named Natalie. I talked to her on the phone and she was amazing! If it wasn't for her, my experience would have been horrible. I'm not gonna fly back on Jet Blue. I thought I'd save money, but I ended up spending about \$200 more due to the hotel cancellation and longer-term parking more expensive at DC's national airport." Cons: "Read on top!" Cons: "The plane was miserable cold, with the temptations that plunged well in the '50s on the plane. I was shaking and sneezing all the time, the guests in a row in front of my parents had their leather jackets on their faces. Air was stabbing me in the window seat. It was the 2 hours most miserable on a plane I've ever experienced, and I've been on thousands. I would strongly reconsider the temptations on the plane as this could seriously ill children and the elderly. I've never experienced it before." Pros: "Nothing". Cons: "We lost our plane. Kayak's calendar reminder said the flight was at 21:50 and was delayed at a departure at 23:00. The worst part - We were traveling with 2 years. Peggior EVER experience." Pros: "All our jetblue flights were excellent" Cons: Terrible. More than 2 hours late, they said it was cause of lightning, no lightning seen, and bad weather to jfk, my husband said not bad weather there, must have been something else, I had to cancel an appointment, which is about to make my weaker, terrible! Don't think I'll do it again." Cons: "Terrible. I can't believe it took so long after landing to get to the gate. I'll never want the blue jet again." Pros: "The boarding process was fast and easy. Finding the seats was easy. The snacks in flight were acceptable." Cons: "The flight announcer at the beginning of the flight was super unprofessional. They kept having to stop their script to laugh and laugh. If I didn't know how to do security procedures, I wouldn't have learned it from him. The seat 31c has a broken luxury port. I tried to watch a movie, first of all the closed caption didn't work. I tried to listen. The AUX port has activated in its wrapper and there was no point in listening. # # the process was very slow and uncoordinated. I understand they have to retire in a certain order. However, the flight announcer could have kept the rest of the aircraft updated on the process. Instead we had to sit in claustrophobic silence and fidget while the passenger line in the aisle didn't move." Pros: "Service, leg room always great!" Cons: "My audio didn't work on this flight and sometimes this year. Maintenance time!" Pros: "The flight was great." Cons: "Ons: "Ons: "Ons: "Service, leg room always great!" Cons: "Service, leg room always great!" "TV checks didn't work" Pro: "Great process, easy boarding and smooth flight." Cons: "I would like more healthy snacks included" Cons: "The morning of the flight from MCO costs me my connection flight to PDX. In a hotel in Phoenix..." Pros: "Not one thing. Worse experience every flight with an airline "Cons: "Ithe landing system and extremely on tops!" Cons: "Very good I like "Cons: "I didn't want to control my transport, and I took it from my hand without question. When I went on board the plane there was a lot of flight was smooth and the landing was perfect. I couldn't ask for better!" Cons: "The flight was short and quite comfortable" Cons: "I'd like to return drinks and snacks. I understand your lack is due to the virus. I think airlines are doing a good job to stay within safety recommendations." Cons: "The fact that I can't buy a drink is ridiculous! I'm willing to pay \$8 for a can of beer and I can't buy one yet. I think many companies are using the excuse of the coronavirus as measures ofCosts. "Negative points:" Staff gave us a difficult time with our 15 month baggage. Almost lost our flight as a result "positive points:" Yes "points:" Yes "points:" Yes "points:" Nothing. Great flight "Positive points:" The connection to Miami did not happen - the crew of the Orlando Yo flights in Miami flight were rude and unfriendly - the plane sitting in asphalt asphalt for a gate so the flight arrived 15 minutes before the scheduled departure â we asked if the plane would be held up â reply- even though it had internet access it was "don't know" you'll have to check with the gate agent â oh and by the way the flight attendant was practically lying down in the front seats â she was so grossly obese and tall as he walked down the hallways that would hit passengers every time he turned â we ran to the gate arriving 8 minutes before departure â the gate agent said "You missed your flight" and then sat down and kept on the phone â the other one at least looked up and told us where to go for assistance â in the end we were assisted and offered us 1 to wait until the next day to go or pass through London â we took the London option. 1. I was informed by an AA employee that the connection is often lost due to similar problems. 2. Flight attendants and gatekeepers will bankrupt the airline with their horrible behaviour. â they should be fired". Pro: Â"Absolutely nothing. At least I got to Washington, but what the fuck! They made us board late and then they didn't want to work anymore and then 6 hours later we were able to board. Really bad.Â" Cons: Â"They should have offered food vouchers instead of the lousy food they were offering, which wasn't enough to feed all the passengers, plus the alleged delay due to bad weather, when you could see the planes leaving every half an hour.Â" Cons: Â"Nothing, great workÂ" Cons: Â"The crew was extremely friendlyÂ" Cons: Â"Boarding time. It took foreverÂ" Pro: Â"Friendly, comfortable, and ON-TIME!!Â" Pro: Â"Friendly, comfortable, and then the boarding announcement was made with a very poor microphone...." Pro: "The plane was nice and clean. Boarding went well and the staff were friendly to boarding. The service was regular even if the food is not great, but then it is air food. The continental food in the morning was well packaged and good. A" Cons: A"The plane boarded and left the gate a bit late, but had a maintenance problem with one of its doors so plane had to come back At the end we took off almost three hours late, but the staff tried to be as helpful as possible, even if he did not know much. It was good that the passengers seemed quite patient and welcoming. The horror was at Venice Airport where it took more than two hours in a row to pass Passport control.Â" Cons: Â"Delay and irregular landingÂ" Pros: Â"The flight was pleasant and all crew members were courteous.Â" Cons: Â"It has nothing to do with AA, but the TSA processing at Orlando International is very slow.Â" Pros: Â"Plane on a plane on time in reasonable conditionsÂ" Cons: Â"The American airlines continue to increase their greed by loading loading All, provide less benefits to frequent flyers and have poor customer service They behave as if they were a monopoly that can charge what they want and treat customers as they feel like Hoping for small airlines that get a better service and price "Cons: "Flight has been canceled for over a week." Pros: "Arrived in Dallas soon" Cons: "1. The flight crew stopped the bus passengers in the middle of boarding to take drinks orders from first class passengers to wait for the bathroom next to the pilot access door. At least five times with individual passengers waiting and one with two waiting. Crew didn't say anything. 3. The flight crew did not check the belts before taking off in the forward section of the coach. At least one safety belt remained uninsured and a child had a backpack on his lap during take-off. A very unprofessional crew. Credit card promotions on the PA system were very annoying and intelligible." Pros: "AAA canceled our flight on 9/13 and rescheduled at 9/15 for no apparent reason. There were flights leaving Orlando. When I called to ask why from all I received another text message the customer service representative was rude. Then I received another text message the customer service representative was rude. want to leave on Friday we should leave another airport that was more than an hour away, which means \$225 in transport to get there! This is at the top of 2 nights of additional hotels we paid and additional meals. When I asked if we would be compensated for all the additional expenses we were running, I was told that it is related weather so probably not. I informed the representative that the flights left Orlando from Tuesday 9/12 so that it could not be the case. He said try to contact them online. ACTLY. I won't want AA again and I wouldn't recommend them to family or friends. If I could give zero stars, but the investigation is about a star. Cons. "American Airlines is always late" "The crew was very kind and we had a safe trip in general" Cons: "2 hours late to take the plane to Orlando and changed the flight to Charlotte when she was nothing together, there was no connection. I had to buy a hotel in Phoenix" Points Flying leather seats Good space room compartment ten-year compartm 7-8 hours to fly out. "Positive points: "The options for entertainment were great." Negative points: "Space and seat seats uncomfortable. I received errors while trying to access GogoinFlight on my tablet, even when I had the most up-to-date app. Therefore I was unable to use the app during my flight to Philadelphia. Furthermore, at check-in from our original starting position, MCO, we did not provide our boarding tags or luggage for our final destination, Barcelona, â €
