On the hoof tack

Objects per page Sort by best price in the foreground, low price, high at low alphabetical order, AZ in alphabetical order, Z date, old to the new date, to go down more Sell DescriptionLife DataAA® Hoof ClayAA® It is a flexible antimicrobial clay that easily packages and remains on the spot into faults of hooves, holes of old nails and cracks. Life DataAA® Hoof ClayAA® provides continuous long-term protection against a wide spectrum of bacterial and fungal invasions that cause poor quality of the clogs, wall separations, crumpling horn, illness of the white line, and thrush. Life DataAA® Hoof ClayAA® is not irritating and is safe to apply without wearing gloves. Problems that the disease of the AddressWhite line is due to a combination of bacterial and fungal organisms that invade the central wall. Crepe clogs, holes of old nails, white line separations and other socket wall defects allow these one plinth EatingA € Microbes to get access to the nourishing half socket wall. The low oxygen environment creates an ideal place for these organisms multiply and weaken the structure of the socket wall, leading to additional defects and collapse horn hoof. Thrush is a microbial invasion of the sole and frog fabric that often leads to the foot of the race, heel pain and limp. The SolutionLife DataAA,AA® Hoof ClayAA® is an easy to apply and long-lasting antimicrobial socket packaging for wall cracks, wall defects, old nails holes, wall separations, and white line disease standing Nudes or horse fooled. Life DataAA® Hoof ClayAA® is also effective as the only packaging for the valley of the valley. A safe to handle and not caustic formulation containing silicon (clay), wheat extract, tea tree oil, iodine, and yucca extract. Available in 10 ounces (283 grams) and 35 ounces (1 kg) wide mouth vessel. The Italian Rubber Tack quarter-tack racing boots protect crown and heel Horse area without the footprint of a bell boot. Flexible and durable, these trimester rubber boots have no belt but slip on and off. Bell boots can be worn under for additional protection. Good boot of protection for horses playing in divers sold in pairs. In black. Small middle. Black A pair (2 boots) of small or medium SKU: 4021 Condition: New What it takes to turn only one on a shoe A € Have you ever been to a big event and a HappensA € ? | You lost a shoe! What to do now? When the horse loses a shoe, it's a bit like having a pneumatic burst. It's not a big problem if you have the tools and know how to solve the problem. But what happens if you give t Know How to turn a shoe up? You might consider the idea without the ShoeA € | But it seems questionable. He seeks high and low to find a farrier, and find one. Later you think, A, oh my god this guy was expensive for only a turning shoe on. Think with me from the point of view Farrierita € s. It would seem simple and that we would not be any responsibility, but I think it's. The farrier will need to download expensive instruments and all together for a shoe, edit around a wrecked shoe that came out, and then add your name to the Elsea some work. LETA s say the shoe is the wrong size or it doesn't adapt correctly: Now what? Make it work? Would you be happy with that? Would you do it in your everyday work? What happens if the trim is away? Do you want to solve a foot and leave the other feet to different lengths? What happens if the foot is broken with nothing from nail to? Yes, you guessed. YouA € King now the deficient that nailedA € warm the horse. All a farrier really is OneA € s reputation. It is more important than any certification or So you can't blame them for not wanting risk that the price of the turned shoes is A € On. ThatA € s because its so difficult to find exhibition farriers willing to hang out all day to solve lost shoes. Years ago I was at home rackets from a trainer horse s and a new boy lost a shoe. I get a shoe put and he says how much I owe you? A, whatever you think is right. A, I said. I handed me a crisp bill \$ 5! I was drilling for a customer and an older man approached, leading a horse and bringing a one He tells me he needs this attacked shoe and asks what I would like to upload. I say \$ 40. and said, A € A, ~ "What! Do I have the shoe, how about \$ 20? A, A, ~" I said. A € A, ~ "Lord, is still \$ 40." Walk, then back with a bill from \$ 20! A € ~ "You do not like this shoe please? It will be simple, will take just a few nails and you pagherA' \$ 20. A" He was a friendly guy, so I said that I do. It was not easy at all! Worse, I wanted to even be associated with the result. Unless they had scrolled the horse originally, most flane will charge you about 20-40% of their complete shoe price. It takes a lot of knowledge for "a shoe on." Whenever you pay someone in the services business, you're paying for what they know, not what they did. I say that if you can't do it yourself and you find a farrier willing to bring your lost shoe back, not complain about the price. Instead, give them a suggestion to save the day and thank you to go back to the arena! God bless America welcome in the small yellow Tack store, at home of the company IT Hoof-it - thanks for the jump. We are a family-run company that is dedicated to bringing practical and easy to use products that really work. We are very proud of the fact that everything is designed and manufactured in our factory in the United Kingdom having worked with horses all our lives, performing a construction site of livre, possess a saddlery store, teaching and obviously riding and competing on our horses We have over 80 years of experience and this is what model everything we plan and manufacture.Ach product was designed to solve the problems we met with our horses. Based on years to do what we love - take care of horses - and that's why they work so well.
