## How to update the app in play store

Many Twitter users on Android have been left frustrated this week after the last update of the app via the play store. This update has behaved the Twitter app immediately blocks when users tried to open the app. Twitter has managed to release an update to fix the problem after a while, but others have been forced to reinstall the app or delete the app's cache while waiting for this fix. In any event, this makes me happy That one of the first things I do when getting a new phone disables automatic app updates via the Play Store. You simply don't know when one of your favorite installed apps may contain a serious bug. The new Twitter for Android Update Cause Crasference Start the launch but this is not the only reason I find myself ignoring the comfort of the automatic app updates, as we have previously seen developers change their business model or even By introducing malware in updates. This was the case for the app for scanning mega-popular CamScanner documents, which introduced intrusive ads and malware in a €
