SAC DESCRIPTION The Student Assistance Advisor (SAC) maintains an important and effective place in public schools. SAC is uniquely positioned to provide individual and school-level services that directly affect classroom education, behavior management, student safety, family support and community relations. Direct services include individual assessment of students, counseling and referral and specific input for students and collaboration with other faculties during intervention and referral services, children's study teams and "504" meetings, as well as individual conferencing with teachers, parents, guidance counselors, members of the children's study team and administrators. School services include the development and adherence of policies (and facilitation of in-service training courses) on mandatory topics (substance abuse, suicide, physical/sexual abuse and sexual harassment policies). The SAC is equipped to develop and implement school crisis response plans in the event of catastrophic emotional events that could impact multiple students. The SAC acts as a liaison with community agencies as a regular participant in municipal meetings, alliances and ongoing communication with local law enforcement officials. Jersey's new administrative code (A§18a: 40) requires policies for suspicion of substance use among students. This policy is intended for an experienced staff - both in terms of familiarity with common drugs of abuse and their related symptoms, as well as response procedures. The SAC is specifically trained in all the subcomponents charged with these statutes, including training of staff on current trends, signs and symptoms of abuse, knowledge of local and community organizations available for prevention, early intervention, treatment and rehabilitation of individuals showing signs of substance abuse, legal guidelines for the implementation of the statutes, substance abuse policies and the ability to interview students suspected of abuse in order to assess the current level of a level of drug/alcohol involvement. Student assistance counseling offers, itã - the prevention counseling is a short-term, problem-focused activity-solving that focuses on solving the problems identified and improving the level of youth and family risks and protective factors that are predictive of substance abuse and / or gambling. It is restricted to individuals between five (5) and twenty (20) years of age. The objectives are to prevent, delay or reduce substance use and gambling problems and adverse consequences caused by substance use and gambling behaviors, and to refer to appropriate treatment or support services those individuals with apparent symptoms of substance abuse or addiction, problem gambling, or educational physical, mental and emotional training here to create a CSAP reference What is SAP? The Commonwealth Student Assistance Program of Pennsylvania (SAP), which is administered by the Office of Schools Schools Safe Department of Education of PA in partnership with the Department of PA's Drug and Alcohol Programs - Division of Prevention and Intervention and the PA Department of Human Services - Office of Mental Health and Mental Substance Abuse Services, is designed to support the development of the Schools Program. to assist school staff in identifying problems such as alcohol, tobacco, other drugs and mental health problems that are a barrier to a student's success. The main goal of the Student Assistance Program (SAP) is to help students overcome these barriers so they can reach, stay in school and progress. The core of the program is a professionally trained team, including school staff and liaison from community alcohol and mental health agencies. SAP team members are trained to identify problems, determine whether or not the submission problem is the responsibility of the school, and make recommendations to help the student and parent. When the problem is beyond the scope of the school, the SAP team will assist the parent and student so that they can access services within the Community. Members of the assistance team to non-diagnosed students, treat or refer to treatment; But they may refer to screening or evaluation for treatment. Referrala - Anyone can report a student to SAP when worriedBehavior - Any school staff, friend of a student, a member of the family or member of the community. The students themselves can also go directly to the SAP Team to ask for help. The SAP Team Contact the parent for permission to proceed with the SAP process. Team planning ã c "The SAP team collects objective information on the student's performance at school from all school staff who have contacts with the student. The information is also collected by the parent. The team meets with the parent to discuss the data collected and also meets with the student. Together, a plan is developed that includes strategies to remove learning barriers and promote the student's academic and personal success to include services and in-school activities and / or communities. Intervention and recommendations ã c "The plan is put into action. The team helps link the student to services and activities based on school and / or on the community. The team could recommend drug and mental health or health assessment. Support and follow-up ã c "The SAP Team continues to work with and support the student and their family. Follow-up includes monitoring, mentoring and motivation for academic success. Please see any member of the SAP guide or Team if you have questions about the SAP process.
