This set of 25 posters is aligned with the Flinn Safety rules and the presentation and notes for a consistent message. During my career, I've seen so many accidents during science labs that could have been prevented with explicit teaching.... The lab safety test administration manual says 100% but that is not required until next year. There's even a quiz to check for understanding. Student Made Safety Slogans Another way I like to reinforce the science lab safety presentation is by having students make posters with safety slogans. Explain why. For instructions on how to facilitate this test download the Test Administration Manual [TAM], Lab Safety TAM We have linked the test below if you would like to download a copy as well. JH Lab Safety Test (MSWord) HS Lab Safety Test (MSWord) Explicitly teaching science lab safety is too important to skip. Probably less than 5! Now, I've seen teachers read through the entire document with the students. See the test administration manual below (LAB SAFETY TAM) for details. We require students to obtain a minimum of 80% on the test. If they don't, teachers should have students retake the test until they achieve 80%. Science Lab Safety Contracts Your district probably has a standard lab safety contract for you to use. The two-page document consists of fifty-five numbered safety instructions. This module has activities and quizzes embedded. Explain to your neighbor what you would do if.... Which rule do you think would be the hardest to follow? Safety Station Examples: Broken glass/Eyewear not being properly worn/Cutting toward you with a razor/Horseplay Lab Safety Posters Pin this for later! Since lab safety is not a "one" and done thing, I like to keep the rules of lab safety visible in the classroom. Our acceptance of rules and procedures for parents and students is the lab safety contract. Safety Exams Students will take the test via their myDSD accounts. Posters are a great way to brighten the science lab, classroom, or bulletin board and also provide a daily reminder of what is expected. I have also created video snippets for students to watch that give more detail about the scenario. Plus, it is always a good way to add some color to the walls in your classroom with student projects in the beginning of the school year. The music video is pretty catchy too. Zombie College is ten minutes of overly-dramatic zombie action that your students are GUARANTEED to love! This just might bump you to the top of the coolest teacher list. I'm not sure that middle school students have the attention span for that. How many students actually read the contract in its entirety? BioNetwork Lab Safety Simulation This module based, interactive simulation is another way to reinforce safety in the science lab. Check out this blog post "5 First Week of School Activities to Build Lasting Relationships." For my classes, I made a presentation and fill in note set that highlight the most important of the science safety rules on the Flinn safety contract. While we are watching the video, I have my students take out a sheet of paper and list the 5 Rules of Lab Safety from the video. They always enjoy this creative activity. Hint: Stuffed animals or Barbie dolls are a fun and easy way to represent people. In my opinion, the last three questions before the signature section are the most important. This is great for a discussion afterwards. There are two major requirements that teachers and students need to fulfill at the beginning of the year each year. Students were given a clipboard and paper and directed to explain which rules were being followed or broken. Needless to say, I am a huge fan of explicitly teaching lab safety! Teaching science lab safety is so much more than sending home the science safety contract for parents to sign. Here are some super easy ways to teach and reinforce safety rules, seemingly harmless horseplay resulting in broken glassware middle school students eating glue on a dare/poking a metal rod into an outlet - zap! mercury spill from a thermometer that never should have even existed in our building - leave it to an eighth-grader to find the ONLY ONE..... cue the hazmat team.... Other ideas: Create a safety cartoon/Record a safety video on Flip Grid Write a skit about science lab safety and perform it for the class Science Lab Safety Performance Assessment Last year, I set up stations in my science lab. Students answer questions like: Which rule do you think is the most important? I know, most of the lab safety rules are common sense and it may seem like a waste of time, but I promise that breaking down the rules in the beginning of the year will pay dividends in the long run. Their mission is to create a poster of the safety rule that they think is the most important. As we go through the presentation, I use the "turn and talk" strategy throughout the lesson to break it up and keep students engaged and thinking. . The test is meant as a teaching tool in the classroom. While the lab safety rules are super important, it is not a riveting read! That's where explicit instruction comes in! Explicit Instruction Lab safety rules presentation In my opinion, I really feel that students need to be explicitly taught the safety rules. Thank you for your participation! Let's talk science safety. The responsibility of managing safety is in the hands of students and teachers in the room. It is up to the teacher and class to create an environment based on clear procedures and rules that promote proper lab safety. It is best to attack this issue with strong procedures and rules which prevent risky behavior around hazards so it doesn't become an issue in the classroom. They will see they have a form to sign and they accept it digitally. Bundle and Save!To make your life easier, the lab safety presentation and notes + poster set are available in a bundle so that you can save 20%! Are you looking for resources for back to school? At the same time, they can take notes on these important ideas. DSD Lab Safety Contract How to access acceptance data The next step is to have the students take the lab safety test which is also done through their myDSD account. Pin this for later! Since I collect the safety contract that students and parents sign, this note page stays in their folder as a reminder of all of the safety procedures throughout the year. The first is to have all of the students accept the district lab safety contract this is done in their myDSD account. Zombie College Video Students will completely eat up the Zombie College Video: 5 Rules of Lab Safety. Do you wear contact lenses?Are you color blind?Do you have allergies? Students are encouraged to participate in online activities such as dressing the model appropriately for lab and cleaning up the lab room to make it safe. While, I think the contract is extremely important to send home for parents and students to read through, let's be honest. We use the Flinn Student Safety Contract in our district for students in grades 6-8. The presentation is a great way to discuss how these rules apply in your classroom or lab.

The (/ ð ə, ð i / ()) is a grammatical article in English, denoting persons or things already mentioned, under discussion, implied or otherwise presumed familiar to listeners, readers, or speakers.It is the definite article in English. The is the most frequently used word in the English language; studies and analyses of texts have found it to account for seven percent of all ... email protected] Lab Safety.
