The only problem in this game is the chips. They are difficult to get. No matter how long it is, the car with chips can hardly be bought, the cars themselves are expensive. Increase the coins you spend at the end of each race or lower your car prices. But a great game. I have never regretted playing it in front of 2,352 people for whom this review was helpful. Every level of this game is so exciting and beautiful. The camera's capabilities are also very good. Problems only cause premium cars, and ads for free chips are also annoying. You can assign it as a reward for a certain level in the game or after a certain car purchase. Can you add Audi cars as well? The graphics are amazing for such a small game. Controls sometimes get stuck and I hit the walls straight. Correct this. Chips are hard to get unless you pay. You can add daily achievements like HCR. Cars are too expensive. You either need to raise the bonus or reduce prices. If you want to improve your car, you have to pay between 10,000 and 20,000 loans from the charge. The platform was supported by over 500 million players. Get down with an amazing 4 wheel machine for speed on asphalt nitro. Burn the city environment of asphalt and tears to become a street king.
